SUMMARY

Full Stack Developer with experience in designing scalable web applications. Skilled in NodeJS, ReactJS, and NextJS, with focus on performance, security, and real-time data management to deliver smooth user experiences.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Apr '25 — Present

ML Bench

Lahore, Pakistan

- Led the full stack development of **Snap&Trace** from scratch, implementing **user/admin** roles, **real-time** processing, and optimized **checkout** logic. This resulted in a **35%** increase in order conversions
- Redesigned **Boodle** core modules to improve **scalability**, reduce crash rates by **60%**, and **optimize performance** for a growing user base.
- Delivered production-ready features on both **platforms**. Aligned **business** requirements with technical implementation to ensure **reliability**, **responsiveness** UI/UX, and a **seamless** user experience with developers and QA's.

Full Stack Developer

Sep '24 — Apr '25

Octalooop Technologies

Lahore, Pakistan

- Refined **3 Mern** Stack projects here including Chat application with 100ms latency and ride-booking application handling 500+ daily requests.
- Integrated **blockchain** functionalities in a ReactJS project, enabling **NFT minting** and improving security, resulting in a **20% faster** transaction processing time.
- Re-engineered a **ride-booking** application with **NextJS**, boosting page load speed by 40% and improving performance to support 1,000+ active users per day.

Software Engineer (Internship)

Jul '24 — Aug '24

Hazen Technologies Inc

Lahore, Pakistan

- Completed HTML and CSS courses. building **10+ responsive web** pages as hands-on projects.
- Learned **Git** for version control and collaborative development. managing **50+ commits** and collaborating on **3+ projects** at a time.
- Worked on a **survey application** with ReactJS and Firebase, optimized for handling **100+ responses** in real time.

EDUCATION

Bachelor of Sciences in Computer Science, MNSUAM (GPA: 3.49/4)

Multan, Pakistan

CERTIFICATIONS

Design Patterns in JavaScripts, Udemy

Nov '24

JavaScript Algorithms and Data Structures, FreeCodeCamp

Mar '25

PROJECTS

Octalooop's Chat Application [Link](#)

- Created a real-time chat application with one-to-one messaging, **user presence**, **typing indicators**, read receipts, **file sharing**, notifications, and secure JWT authentication.
- Tech:** ReactJS, NodeJS, MongoDB, ExpressJS, Socket.io

Hazen Servey's Application [Link](#)

- Developed a survey platform with **administrator and user roles**, **real-time** response tracking, and **graphical** representation of survey submissions.
- Tech:** ReactJS, Firebase

Q Telecom's IMS, Q Telecom Mobile Shop [Link](#)

- Designed an Inventory Management System to **track** new and existing products and improved **sales performance** by **analyzing** product trends and demand.
- Tech:** NextJS, MongoDB, Prisma, Tailwind

SKILLS

Programming Languages JavaScript, TypeScript, Python

Frameworks Node.js, Express.js, React.js, Next.js, Nest.js

Databases MongoDB, PostgreSQL, MySQL

DevOps Cloud Services, CI/CD, Azure, AWS, Google Cloud Platform, Digital Ocean

Soft Skills Restful APIs, HTML/CSS, Tailwind, Git, Server-Side, Agile, Docker, Teamwork
