Ali Raza *Full Stack Developer*

◆ Lahore ✉ malirazaansari4@gmail.com 📞 03156195281 🔗 Portfolio 🔗 LinkedIn 🔗 GitHub

Summary

Full Stack Developer with experience in designing scalable web applications. Skilled in NodeJS, ReactJS, and NextJS, with focus on performance, security, and real-time data management to deliver smooth user experiences.

Skills

Languages: JavaScript, TypeScript, Python, SQL

Technologies: NodeJS, ExpressJS, ReactJS, NextJS, EtherJS, Azure, Git, MongoDB, HTML/CSS, Docker, TailwindCSS, Design Patterns, MySQL

Experience

Full Stack Developer *Lahore, PK*
Octaloop Technologies *Oct 2024 – Present*

- Refined 3 Mern Stack projects here including Chat application with 100ms latency and ride-booking application handling 500+ daily requests.
- Integrated blockchain functionalities in a ReactJS project, enabling NFT minting and improving security, resulting in a 20% faster transaction processing time.
- Re-engineered a ride-booking application with NextJS, boosting page load speed by 40% and improving performance to support 1,000+ active users per day.

Software Engineer Intern *Lahore, PK*
Hazen Technologies *July 2024 – Aug 2024*

- Completed HTML and CSS courses. building 10+ responsive web pages as hands-on projects.
- Learned Git for version control and collaborative development. managing 50+ commits and collaborating on 3+ projects at a time.
- Worked on a survey application with ReactJS and Firebase, optimized for handling 100+ responses in real time.

Projects

Octaloop's Chat Application *Link* 🔗

- Created a real-time chat application with one-to-one messaging, user presence, writing indicators, read receipts, file sharing, notifications, and secure JWT authentication.
- Tools Used: ReactJS, NodeJS, MongoDB, ExpressJS, Socket.io

Hazen Servey's Application *Link* 🔗

- Developed a survey platform with administrator and user roles, real-time response tracking, and graphical representation of survey submissions.
- Tools Used: ReactJS, Firebase

Q Telecom's IMS *Link* 🔗

- Designed an Inventory Management System to track new and existing products and improved sales performance by analyzing product trends and demand.
- Tools Used: NextJS, MongoDB, Prisma, Tailwind

CERTIFICATIONS

JavaScripts Algorithms and Data Stturcture , FreeCodeCamp *Mar 2025*
Nodejs- The Complete Guide, Udemy *Sep 2024*

Education

MNSUAM *Sept 2020 – July 2024*
BS in Computer Science (GPA: 3.49/4.0)
